A Great improvements have been made in the casulacture of these goods of late, and we can now recommend them for general use.

The HEAVY GLOVES and MITTENS are unrivaled as a protection in all kines of acid work of the Chemist, Druggists and Photographiet, manufacturing and handling of potashos and other strong alkalies; for Oystermen, Drivers in storms, and Hose Companies in the Fire Department.

We would particularly call the attention of Farmers, Mechanics, Hatters, Tanners, Milkmen and Lumbermen to these Gloves and Mittens, as being wellhadapood to their use.

They are superior to the Buck Mitten, especially in wet work. The LIGHT GLOVES are used for softening and bloaching the hands. As a speedy and effectual cure for Chapped and Rough bands, Salt Rheum, A.c., they have no equal; are very useful write engaged in domestic sasiars such as sweeping, dusting, bottoe-clessing, and are invalendle in atoseding to coal fires; a requisite in every family for washing, coloring, all roughening and dirry kinds of work, and particularly useful in gardening and care of sirubs and flowers.
